WWF has followed the negotiations on climate change through the UN Framework Convention on Climate Change (UNFCCC) since their inception in Rio de Janeiro. Today we continue to push for a fair, global deal on climate change that helps put the world on track to reduce greenhouse gas emissions to levels that ensure we avoid dangerous levels of climate change.

This year is an important one as the annual Conference of the Parties (or COP) will be held in Lima, Peru in November/December. Peru has an opportunity to make this the most successful meeting since the Cancun COP in 2010. This will only happen if countries come to Lima and demonstrate their plans to act domestically to reduce emissions and use this momentum to pressure other countries to increase their ambition. WWF will endeavor to coordinate Latin American countries to come up with regional plans to reduce emissions, leveraging the WWF Network offices in this region (Colombia, Peru, Brazil, Mexico, etc.,).

WWF not only works to influence the negotiations in the UNFCCC and other negotiating platforms at the bilateral and multilateral level. WWF follows the UN International Civil Aviation Organization and its efforts to create a global market-based measure to reduce emissions from flights. We also track and try to influence the US-China bilateral relationship on climate change, primarily through the China-US Climate Change Working Group (CCWG).

Potential duties could include:
- Summarize key points from technical papers or conduct literature reviews of carbon offset systems, MRV (monitoring reporting and verification) systems, or related papers on market-based measures.
- Design and organize public panel discussions on topics such as China’s climate and energy policies.
- Track and assess emerging strategic priorities for WWF on climate.
- Help with event logistics.
- Draft blog posts on various climate topics.
- Joining joint-NGO conference calls to assist with note taking.

Minimum Requirements:
- Undergraduate senior or junior with a passionate interest in climate change policy and majoring in a
related field (e.g. environmental studies, international development, environmental economics, public policy, political science, etc.).

- Must be able to work efficiently and independently, remaining flexible to tasks and shifting priorities.

Preferred attributes:
- Graduate school student majoring in environmental policy, environmental economics, or public policy.
- Excellent written and verbal communications skills; ability to work collaboratively in a fast-paced environment; strong interpersonal skills crucial for developing working relationships internally and externally; strong organizational skills; and attention to detail.
- Professional proficiency in Spanish or Mandarin language is a plus, but not required.

Location:
Washington, DC

Compensation:
Unpaid. For all unpaid internships, applicants must be enrolled in school and be able to obtain academic course credit from their university.

Office Hours:
WWF’s core hours are 9am-5pm. Internship hours can be flexible (part time/full time) depending on class schedule and availability.

How to apply:
Please email a resume, cover letter, and projected availability with the subject line “Internship Application” to Brad Schallert at brad.schallert@wwfus.org by March 27, 2014.

To Apply
Please email a cover letter and resume/CV to the contact individual listed for each project, with “INTERNSHIP” and the relevant internship number listed in the subject line.

- Demonstrated interest and experience in climate and energy issues;
- An undergraduate degree in environmental policy, economics, international affairs, natural resource management, or other relevant fields;
- Excellent quantitative and qualitative research
skills, with the ability to understand and articulate sophisticated economic, political, and technical analyses;
- Experience with Excel
- Experience with GIS preferred
Position Type: Internship (Fall or Spring Part-Time)

Desired Major(s): All Majors

Location: Washington, District of Columbia (United States)

Description: The Research Department is seeking part-time and full-time interns for the summer. Interns will work closely with FDD staff to conduct research on a number of our critical projects. Interns will also work with the research team and will likely have an opportunity to work directly with an FDD Research Fellow. If there is a particular FDD Fellow of interest to you, please indicate that on your cover letter. The Research Department is looking for interns with research experience, and ability to conduct research in a foreign language is a plus (particularly Farsi and Arabic) but not required.

Based in downtown Washington, D.C., the Foundation for Defense of Democracies has a number of summer internship opportunities available. All FDD interns will have the opportunity to participate in a twice-monthly speaker series, which brings high-level DC officials and senior staff members to engage with interns in an intimate setting. FDD interns will be encouraged to build on their academic skills by working closely with senior staff. FDD is also happy to assist students who wish to earn academic credit for this internship. All internships are unpaid.

The Foundation for Defense of Democracies (FDD) is a nonpartisan policy institute dedicated exclusively to promoting pluralism, defending democratic values, and fighting the ideologies that threaten democracy. The organization was founded shortly after 9/11 by a group of visionary philanthropists and policymakers to engage in the worldwide war of ideas and to support the defense of democratic societies under assault by terrorism and militant Islamism. FDD combines policy research, investigative journalism, strategic communications, and democracy and counterterrorism education.

Application Materials Required:
1. Resume/CV
2. Short personal statement/cover letter articulating your interest in an internship position at FDD.
3. Writing Sample (no more than 3 pages)
Incomplete applications will not be considered.

To Apply: In order for your application to be considered, send all application materials via email to Kellie Soto at Kellie@DefendDemocracy.org

Applications will be considered on a rolling basis. It is recommended that interested candidates submit applications early.

### Job Function:
Research

### Desired Class Level(s):
Junior, Senior, Masters Candidate

### Duration:
TBA

### Approximate Hours Per Week:
22-30

### Qualifications:
**Eligibility:**
