University of Maryland
3 Job Postings For July 2014

Fall Intern: Open-Source Policy Center (615-410)
American Enterprise Institute for Public Policy Research (AEI)

Position Type: Internship (Fall or Spring Part-Time)
Desired Major(s): All Majors
Location: Washington, District of Columbia (United States)
Description: The Open-Source Policy Center (OSPC) develops and hosts open-source tools for computational policy analysis. OSPC interns will work on tasks such as optimizing computational economics models in Python, translating economic models into Python, improving our programming work-flow, and designing new features for our models and APIs. The ideal candidate will have a computer-science background and experience with Python. An interest in economics and a history of open-source contributions are both desirable.

Job Function: Other
Desired Class Level(s): Freshman

Garten Rothkopf

Position Type: Summer Internship
Location: Washington DC, District of Columbia (United States)
Description: Garten Rothkopf, an international advisory firm, is seeking Summer Interns to contribute to a major new project for a Fortune 200 company. The project is a comprehensive and forward-looking study that examines a combination of macroeconomic, policy, technology, and industry trends and analyzes potential business implications.

Primary responsibilities include:
• Performing research on policy and market landscapes in selected countries
• Collecting and analyzing data on related topics
• Conducting interviews with experts
• Supporting efforts to produce client deliverables, including presentations and reports

Requirements:
• Must have or be currently pursuing a graduate degree in a related field, such as economics, public policy, international relations, or business
• Strong command of Turkish, with native speakers a plus
• A proven track record of qualitative and quantitative
Exceptional communication skills, both verbal and written
Highly motivated and able to meet tight deadlines
Comfortable working independently and as part of a team
Comfortable conducting phone interviews
Strong command of PowerPoint and Excel
Ability to work at least 40 hours/week

Job Function: Consulting, Research
Approximate Hours Per Week: 40

Qualifications:
• Must have or be currently pursuing a graduate degree in a related field, such as economics, public policy, international relations, or business
• Strong command of at least one of the following desired languages – Spanish, Russian, German, Turkish, Vietnamese, Italian, Portuguese, Ukrainian – with native speakers a plus
• A proven track record of qualitative and quantitative research
• Exceptional communication skills, both verbal and written
• Highly motivated and able to meet tight deadlines
• Comfortable working independently and as part of a team
• Comfortable conducting phone interviews
• Strong command of PowerPoint and Excel
• Ability to work at least 40 hours/week

Fall Intern: Labor Economics (614-410)
American Enterprise Institute for Public Policy Research (AEI)

Position Type: Internship (Fall or Spring Part-Time)
Desired Major(s): All Majors
Location: Washington, District of Columbia (United States)

Description: Resident scholar Michael Strain conducts research on labor market outcomes and the US economy. Some of his current research seeks to understand the employment effects of minimum wages during the Great Recession, the gap in male and female labor market outcomes, and the effect of government employment programs on crime levels. An intern will assist with this research by preparing large government datasets for analysis in Stata. The ideal candidate would have prior experience working with large datasets in Stata, or a similar statistical package, and experience performing economic research, either for a professor or in a prior internship. Only candidates with or working towards a master's degree in economics or a related field will be considered.
