University of Maryland
3 Job Postings For September 2015
**Position Type:** Internship (Fall or Spring Part-Time)

**Desired Major(s):** All Majors

**Location:** Washington, District of Columbia (United States)

**Description:** The National League of Cities’ City Solutions & Applied Research provides undergraduate and graduate students with an opportunity to work on a wide variety of local government policy issues including: housing, sustainability, taxation, immigration, transportation, telecommunications, community and economic development, public safety and many others. NLC involves interns in substantive projects that include research and oral and written communications components. Additionally, interns are fully incorporated into the NLC staff to learn the value of teamwork in an office environment and how to work with other professionals on a daily basis to complete a task.

Duties for the Housing Policy Intern will include:

- Researching local government policy issues and innovative practices related to homelessness, affordable housing, and veteran issues;
- Writing for the NLC website (knowledge of or willingness to learn CMS software key);
- Assisting with surveys (knowledge of SPSS software desired);
- Attending meetings or briefings and reporting back to staff; and
- Providing administrative support as needed.

**Job Function:** Administrative/Support Services, Research

**Desired Class Level(s):** Junior, Senior

**Qualifications:** Highly qualified candidates should be approaching or in their final year of undergraduate education or be in a graduate-level program. Excellent oral and written communications skills are required along with strong organizational skills and an interest in government, public policy or related fields. Priority will be given to candidates with experience working on the issues of homelessness and/or affordable housing. Relevant coursework will be considered.

This is a paid internship ($10.50 – undergrad/$12 – graduate student) for an initial period of three months (12 weeks). There may be the potential for on-going work into the spring academic semester. Work hours are generally at least 20-30 hours per week.
**Position Type:** Internship (Fall or Spring Part-Time)

**Desired Major(s):** All Majors

**Location:** Arlington, Virginia (United States)

**Description:** CRDF Global is a nonprofit organization that promotes international scientific and technical collaboration (S&T). Our public-private partnerships extend across the globe, including countries in South and Southeast Asia, the Middle East, Eurasia, and North Africa. Through grants, technical resources and training, CRDF Global advances international S&T collaboration, supports emerging nations and promotes greater connectivity with emerging scientific communities. At CRDF Global, we emphasize a client-centered, mission-driven approach supported by creativity and flexibility.

The intern’s primary assignment will be with the Biosecurity Engagement Program (BEP) team assisting in research, proposal development and monitoring and evaluation of current and future projects. BEP’s work is funded by the U.S. Department of State in a multi-year grant from the Office of Cooperative Threat Reduction, with the goal of reducing the risk that terrorists will misuse life science expertise, equipment or materials.

The ideal candidate is a highly motivated individual who can work both independently and as part of the team to assist with the development and coordination of international projects and who enjoys working in a challenging environment. Candidates must have a strong interest and academic or professional background in life sciences, nonproliferation policy, and/or security studies and be motivated to engage in a wide range of technical areas.

**Major Responsibilities**

The intern will provide administrative and logistical assistance, may assist with proposal development and project execution, maintain relevant files and databases, attend CRDF Global related events in the D.C. area and perform research and writing tasks on nonproliferation, biotechnology, biosafety and biosecurity issues. The intern will also have a focus on monitoring and evaluation aspects of programming especially in the development of new proposals for the upcoming fiscal year.

**Qualifications**

- Proficiency with Microsoft Office, including prior experience with Microsoft Outlook, Word and Excel is preferred.
- Interest in qualitative data analysis, research and
• Interest in the life sciences, biosecurity/biosafety, global health security, international relations in the Middle East/North Africa, Sub-Saharan Africa and/or South and Southeast Asia is desirable.
• Ability to work at least 15 hours per week with a maximum of 28 hours per week; the internship tenure is limited to 5 months.
• U.S. work authorization is required

**Job Function:** Administrative/Support Services, Research, Sciences

**Desired Class Level(s):** Junior, Senior, Masters Candidate, Doctoral Candidate, Post Doctorate, Recent Grad (up to 1 year out), Alumnus/a (beyond 1 year out)
